

Perfect for bakery
and confectionery
products looking
for **delicious** and
distinctive flavours

Syrups and Treacle

British Sugar's high quality, golden
syrups and treacle are perfect for
adding flavour, texture and colour

Syrups and Treacle

Applications

Syrups enhance many products including syrup puddings, treacle tarts, flapjacks, biscuits, butterscotch sauce, toffee and ice-cream.

Treacle is particularly suited for use in:

- bakery products – rich fruitcakes, treacle scones and parkin
- confectionery uses – toffee, liquorice and boiled sweets
- in healthcare – products such as elixirs and cough linctuses benefit from the smooth texture of a syrup.

Product development

If you have a specific requirement not covered by our standard range please talk to us about bespoke options (and their lead times).

If you require more information, e.g. a product specification sheet, a sample or advice, please contact us to discuss your needs.

Technical information

- All syrups and treacle are **non-GM** and suitable for **vegan, vegetarian** and **Kosher** diets
- Classic Golden Syrup, Golden Syrup No.2 and Bakers Syrup offer a **'clean label'** declaration

The Syrups and Treacle range

| Product (Product Code) | Properties | % Solids (°Brix) | Colour |
