

OUR 3 POLICY ASKS TO ENSURE THE BRITISH BEET SUGAR INDUSTRY CAN MAKE THE MOST OF BREXIT

1 Champion free and fair trade

We successfully compete against EU beet producers in the UK, Ireland and mainland Europe

2 Allow us to compete on an equal footing - no unilateral reduction of tariffs

The world sugar market is highly distorted, with the six major sugar producing and exporting countries benefiting from state support

Figures refer to subsidisation rate as a percentage of the production value at farm gate, including direct and indirect subsidies such as direct payments, price support mechanisms, production quotas and ethanol policy.

3 Maintain unrestricted duty and quota free access for LDC and ACP countries

Many Least Developed Countries (LDCs) and African, Caribbean and Pacific (ACP) countries use preferential access to the UK market to drive positive development outcomes
