

Environmental Policy

British Sugar believes that protection of the environment is everyone's responsibility and all employees are accountable for environmental performance. At a minimum, British Sugar will aim to fulfil its compliance obligations for all appropriate environmental legislation and other requirements relating to the activities of the company; protect the environment through the prevention of pollution; and enhance its environmental performance through the continual improvement of the environment management system and a process of monitoring, measuring and reviewing its significant environmental impacts.

This policy statement is communicated to all of British Sugar's employees and contractors

Paul Kenward
Managing Director
