

# Product Safety & Quality Policy (Food & Feed)

## BRITISH SUGAR FOOD SAFETY & QUALITY POLICY

British Sugar is committed to producing safe, good quality and legally compliant food and feed, meeting customer requirements; first time, every time.

We will promote an environment of continuous improvement and a positive food safety culture in which everyone takes personal responsibility, and which is embedded in everything we do from field to consumer.

British Sugar want our customers to choose us as a supplier for reasons other than price. We aim to do this by understanding their needs, for their products to be successful.

Our Management Systems for Food Safety and Quality are shaped by ISO, FEMAS, Retailer and GFSI recognised standards and our policies communicated across the business.
